Thurs 7 th Sept.	Autumn Term begins.

Last week was the first of our four residential trips to go out this term. The Year 4 children went to PGL for three days. They had lots of new experiences including quad biking, high ropes, tunnelling, trapeze and rifle shooting. The children were extremely well behaved and made taking them a pleasure.

MEDICAL APPOINTMENTS

If your child needs a medical appointment which cannot be made outside of school hours please notify the school office who will notify the member of staff concerned. You may be asked for a copy of their appointment. If your child's attendance is below 90% illness will not be authorised without a doctor's note.

Please could you inform the office of any other absences rather than a verbal chat with staff. Sometimes this information gets forgotten within a busy day and you get a text from the office.

SCIENCE WEEK

Throughout the week the children will be conducting a range of experiments culminating in two very exciting days with outside providers. One is Wonderdome - the mobile planetarium, and the second being Gross Lab from Eureka in Halifax. There is no cost for these activities as school and the PTA are funding these days.

Please could you start saving yoghurt pots, cereal boxes, toilet rolls, kitchen rolls, milk cartons etc Please send anything you can on Friday 19th May. Without these materials the children will not be able to participate in Tuesday's activity.
